Career Objective

A highly motivated and detail-oriented Junior React JS Developer with a strong foundation in full-stack MERN development. Dedicated to building responsive, accessible, and high-performance web applications that bridge clean code and modern aesthetics. Aspiring to leverage technical expertise in React, Next.js, and MongoDB to contribute to impact-driven development teams while continuously learning and growing.

Skills

Frontend:: React.js, Next.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), BetterAuth

Backend & DB: Node.js, Express.js, MongoDB Atlas, Better Auth, Firebase Integration, RESTful APIs, JWT

Tools & Others: Git, GitHub, Vercel, Render, NPM, VS Code, Command Line, Component-Driven Design

Interpersonal: Problem Solving, Clean Coding, Teaching & Mentoring, Adaptability, Time Management

Projects

Veluxora – Premium Car Rental Platform

Next.js | Express | MongoDB | Better Auth

[Live Link](#) | [Client Repository](#) | [Server Repository](#)

A full-stack premium car rental application enabling users to list, explore, book, and manage vehicle rentals.

- Implemented role-based dashboards (User & Admin) for streamlined listing management, car uploads, and real-time booking tracking.
- Integrated secure Better Auth Authentication paired with JSON Web Tokens (JWT) stored in HTTPOnly cookies for route protection.
- Designed a dynamic Explore page supporting live search by name via MongoDB regex and type-based filtering.
- Built an automatic price calculation module based on rental duration with custom driver-assistance add-on options.

ZapShift – Online Courier & Parcel Delivery

React | Express | MongoDB | Firebase

[Live Link](#) | [Client Repository](#) | [Server Repository](#)

A complete MERN stack courier service platform featuring role-specific actions and dashboards.

- Engineered separate responsive dashboards for Users (send parcels), Riders (accept jobs), and Admins (system control & analytics).
- Created a dynamic parcel booking system with automated distance and weight-based delivery charge calculation.
- Developed Rider tools to accept delivery requests, update shipment statuses, and track individual earnings.
- Integrated a secure client-side form routing and Firebase-backed user roles with private routing logic.

Professional Experience

Teacher / Educator

2024 – Present

Jamiatull Hasan Al Islamia – Shere Bangla Nagar, Dhaka

- Instructed students in advanced Islamic sciences including Fiqh (jurisprudence), Hadith (traditions), and Arabic literature.
- Mentored students in academic disciplines, bridging traditional scholarship with modern digital literacy and web development awareness.

Education

Dawra-e-Hadith (Masters-equivalent) – First Class Honours

Graduated 2024

Jamia Arabia Ashraful Uloom, Tejgaon, Dhaka | Al-Haiatul Ulya Board

Specialized in Hadith sciences, Islamic jurisprudence, and Arabic literature. Recognized by the National Qawmi Madrasa Board.

Languages

Bengali: Native | **English:** Basic | **Arabic:** Intermediate (Academic & Conversational)
